VARIAGLASS

VARIAGLASS black

- **Easy to use:** its dimmer located on the mast allows you to find the most comfortable lighting for reading, writing and working.
- **Refined design:** its modern look and frosted glass washbasin gives it an elegant character that will harmonize perfectly with your office.
- **Equipped with quality LEDs (light-emitting diodes):** this street light emits non-flickering and zero radiation light, helping to reduce eye strain.
- **Stability:** 5 kg weighted base, ensures perfect stability of the floor lamp in areas of large passages.
- **Longevity:** the lifespan of its LEDs is estimated at more than 40,000 hours.

Warranty: 2 years

OUR EXPERTISE

1- Floor lamp with indirect lighting: An essential complementary light!

Because they're so easy to install and so decorative, indirect-lighting floor lamps are a firm favourite with the French! This floor lamp is ideal for illuminating a specific area of a room, or for adding a small, original decorative touch that will change the whole atmosphere of the room.

Thanks to its upward-directed light, which will reverberate off the ceiling, this floor lamp generally acts as a secondary or ambient light, providing you with high quality, high-performance lighting. It blends in perfectly with any room in your business:

- individual office
- open space
- meeting rooms
- high-traffic areas such as reception halls

OUR CERTIFICATIONS

Unilux is committed to an eco-responsible approach and ensures that its products respect this commitment. Indeed, we are very concerned about current environmental issues and we aspire to respond as best as possible to the concerns of our consumers on this subject. Sustainable development is at the heart of our strategy and we act for the environment. You will find below the different certifications that Unilux has and that prove its environmental commitment.
