FLO LED

FLO LED

- **Silent:** compared to conventional pendulums, this electric clock does not emit any noise that is harmful to concentration and productivity.
- **High-tech and modern design:** its black square dial with aluminum contour gives information thanks to blue LEDs that give it a trendy and contemporary look compatible with all styles of workspaces (lobby, meeting and office).
- **Have everything in view:** Display of days of the week, date and indoor temperature from -9°C to +50°C.
- **Readable day and night:** thanks to a dimension of 28 cm and its contrast of large blue LED digital numerals 6 cm high on a black background.
- **Smart:** no need to change the battery, this LED clock plugs directly into mains (cable = 1m 80)

OUR EXPERTISE

A clock is a must-have accessory that fits perfectly into any room in your business:
individual office
- open space
- meeting room
- Passing places
- lobby

Setting up a clock in a workspace allows employees to avoid checking the time on the smartphone or tablet time and therefore not be tempted to look at their messages or browse the internet by same occasion. Thus a clock allows to gain in concentration and productivity because the employees are less distracted.

For good readability from a distance, it is important to have:
- good contrast between the background of the dial and the color of the numbers (better contrast with   white background / black numbers)
- A good height of the figures (about 3cm minimum) and in Arabic characters preferably
