

UNILUX

FLEXILED

FLEXILED

The Flexiled lamp has been specially designed for worktops on which there are several screens, such as in control rooms, trading rooms... It is fixed on the desk without taking up space either with a clamp or on axis.

- **Convenient to use:** You can adjust the lighting angle freely with the flexible rotating gooseneck design.
- **Sleek design:** its elegant and minimalist lines will appeal to a wide range of users.
- **Low visual stress after prolonged use:** ideal for working, reading or studying at home or office.
- **Protect your eyes:** this lamp offers a pleasant, stable and quality light thanks to the latest generation LEDs protected by opaque plastic. No flickering or glare.
- **Touch switch:** A simple touch on the head of this lamp will make it glow.
- **Space saving:** With its clip and its opening of 8 cm max. This lamp will blend perfectly on the desks which will allow you to save space.

Warranty: 2 years

Maximum height: 80 cm / minimum height: 30 cm

OUR EXPERTISE

1-Why use auxiliary lighting?

We are regularly subjected to constant artificial lighting in the office, which takes no account of our biological rhythms. Poor lighting quality can cause headaches, sleep disorders and loss of concentration. According to a recent study, only 34% of offices achieve the level of illumination of 500 lux recommended by Occupational Medicine in accordance with DIN EN 12464-1*.

2-How to light your workspace?

- Position the lamp head at least 35 cm above the worktop. work surface.
- Place the lamp on the opposite side to the hand that is holding the mouse or writing.
- Use lamps with asymmetrical lighting to reduce eyestrain, which can lead to eye irritation, headaches, loss of concentration, reduced productivity, etc.
- Position the lamp so that it is easy to adjust and so that the light is in the right place.
- Avoid reflections from shiny surfaces.
- Limit direct glare from bright light in the field of vision and indirect glare from bright light in the field of vision. in the field of vision and indirect glare from the reflection of light from the reflection of light in the field of vision, on a work surface walls or objects.

OUR CERTIFICATIONS

Unilux is committed to an eco-responsible approach and ensures that its products respect this commitment.
