JOKER

# JOKERLED 2.0

JOKER LED 2.0: best seller with a modernized design. 2 joints: head and tilting arm / Textured diffuser avoiding reflections. Interchangeable LED module as easily as a bulb. Great visual comfort. Switch 2 intensities on the base: 70% and 100% of the luminous flux.

- **Son interrupteur ON/OFF:** facile d'accès, il est situé sur le socle. Avec les 2 positions de variation d'intensité, choisissez l'intensité lumineuse la plus appropriée tout au long de la journée pour mieux répondre à vos besoins.
- **Best-seller:** design aux lignes modernes alliant formes arrondies et proportions harmonieuses. Un modèle incontournable qui s'adaptera parfaitement à tout type de bureau.
- **Énergétiquement efficace:** Durée de vie : 40 000h.
- **Une lumière agréable, équipée d'une technologie protégeant vos yeux:** une lumière stable et de qualité grâce aux LED dernière génération, protégées par un plastique opaque : ni scintillement, ni éblouissement.
- **Module LED interchangeable:** l'utilisateur peut changer les LED aussi facilement qu'une ampoule.

Garantie: 2 ans

Hauteur maxi: 55 cm/ hauteur mini: 30 cm

Matériaux: socle et tête en plastique ABS/ bras aluminium peinture finition epoxy

End user replaceable light source (LED only)

## Characteristics

Lux measurement on the work surface in top view at 35 cm:

> 500 Lux

< 500 Lux

Lux measurement on the work surface in profile view at 35 cm:

Measurement in nanometers of the light spectrum

- 0 No-risk
- 1 Low-risk
- 2 Moderate-risk
- 3 High-risk

SAP no.	400064432 / 400064434 / 400064435
Colors	Black / Metal Grey / Green
Energy Consumption kWh/1000h	6
Lux at 35 cm	1760
Luminous flow	478 lm
Lm/W	80
Color T°	3000 K
CRI	92
Source's lifetime	40000 h
Net weight	1,35 kg
EAN code	3595560011353 / 3595560011377 / 3595560011391

# OUR CSR COMMITMENTS

## Energy class

1. All our lighting are **100% repairable** thus limiting planned obsolescence.
2. Reduce our carbon footprint through our **ECO-DESIGN THINKING** approach.
3. Contribute to the preservation of the planet's natural resources by promoting the use of **recycled materials**.
4. Optimize our packaging to control our **transport costs**.
5. Highlight the **talent of our employees** by ensuring social equality.

# OUR EXPERTISE

## 1-Why use auxiliary lighting?

We are regularly subjected to constant artificial lighting in the office, which takes no account of our biological rhythms. Poor lighting quality can cause headaches, sleep disorders and loss of concentration. According to a recent study, only 34% of offices achieve the level of illumination of 500 lux recommended by Occupational Medicine in accordance with DIN EN 12464-1\*.

## 2-How to light your workspace?

- Position the lamp head at least 35 cm above the worktop. work surface.
- Place the lamp on the opposite side to the hand that is holding the mouse or writing.
- Use lamps with asymmetrical lighting to reduce eyestrain, which can lead to eye irritation, headaches, loss of concentration, reduced productivity, etc.
- Position the lamp so that it is easy to adjust and so that the light is in the right place.
- Avoid reflections from shiny surfaces.
- Limit direct glare from bright light in the field of vision and indirect glare from bright light in the field of vision. in the field of vision and indirect glare from the reflection of light from the reflection of light in the field of vision, on a work surface walls or objects.

# OUR CERTIFICATIONS

Unilux is committed to an eco-responsible approach and ensures that its products respect this commitment. Indeed, we are very concerned about current environmental issues and we aspire to respond as best as possible to the concerns of our consumers on this subject. Sustainable development is at the heart of our strategy and we act for the environment. You will find below the different certifications that Unilux has and that prove its environmental commitment.

**FR :** Source lumineuse remplaçable (LED uniquement) par un utilisateur final  
**EN :** Replaceable (LED only) light source by an end-user
