SUNLIGHT

SUNLIGHT

The SUNLIGHT LED lamp is an innovative, high-quality product that meets many needs. The lamp has two modes allowing you to adjust and use the light as you see fit according to your needs at different times of the day. The SUNLIGHT is a lamp to follow the circadian cycle, which will allow a good restitution of the light you need to be efficient and soothed in all circumstances, at work or at home.

Free upload application : My-unilux

- **Well-being:** innovative and connected lamp via your smartphone that synchronizes your circadian rhythm by reproducing sunlight and its impact on hormones (melatonin and serotonin).
- **Automatic mode:** The pre-programmed circadian cycle brings you the right quality of light at the right time of day.
- **Manual mode:** adjustment of intensity and color temperature according to your needs.
- **Contemporary design:** the worked design of the head and the fineness of the arm give a pure and original line to the lamp. It fits both in the office and at home.
- **Optimal and even light diffusion:** thanks to its LED with natural lighting, this lamp will better protect your vision, reduce the tension and fatigue of your eyes.
- **ON / OFF switch:** located on the easy access cord.

Warranty: 2 years
 Max height: 50 cm
 Materials: pedestal and head in high quality steel with epoxy paint / chromed steel arm

Professional replaceable light source (LED only)

Characteristics

Measurement in Lux on the worktop view at 35 cm:

> 500 Lux

< 500 Lux

Lux measurement on the work surface in profile view at 35 cm:

Max 1395 LUX

Measurement in nanometers of the light spectrum

- 0 No-risk
- 1 Low-risk
- 2 Moderate-risk
- 3 High-risk

SAP no.	400110128
EAN code	3595560028030
Colors	Black
Luminous flow	546
Lux at 35cm	1395
Lm/W	78
Color T° (K)	2700 K at 5200 K
CRI	86
Source Lifetime (h)	50 000
Energy consumption (kWh/1000 h)	7
USB Port	No
Inductive charger	No
Net weight (kg)	3,79

OUR CSR COMMITMENTS

1. All our lighting are **100% repairable** thus limiting planned obsolescence.
2. Reduce our carbon footprint through our **ECO-DESIGN THINKING** approach.
3. Contribute to the preservation of the planet's natural resources by promoting the use of **recycled materials**.
4. Optimize our packaging to control our **transport costs**.
5. Highlight the **talent of our employees** by ensuring social equality.

OUR EXPERTISE

1-Why use accent lighting?

We are regularly subjected to constant artificial lighting in the office that does not take into account our biological rhythm. Poor lighting quality can cause headaches, sleep disorders, loss of concentration. According to a recent study, only 34% of offices reach the lighting level of 500 lux recommended by Occupational Medicine.

2-Biodynamic light: source of well-being!

An adapted biodynamic light that accompanies you on a daily basis is essential to be effective in your work, your projects in order to prevent any harmful consequences produced by poor lighting. Your productivity will be greatly improved, you will be more dynamic and in a better mood. This is the reason why each individual must carefully follow his "circadian rhythm". The circadian rhythm is a biological rhythm that governs a set of physiological processes in humans. It is regulated by light for 24 hours.

OUR CERTIFICATIONS

Unilux is committed to an eco-responsible approach and ensures that its products respect this commitment. Indeed, we are very concerned about current environmental issues and we aspire to respond as best as possible to the concerns of our consumers on this subject. Sustainable development is at the heart of our strategy and we act for the environment. You will find below the different certifications that Unilux has and that prove its environmental commitment.
