

UNILUX

TAMY

TAMY

Discover **TAMY**, a modern and sleek lamp in pastel colors, featuring a 360° swiveling arm for adjustable lighting.

UNILUX

- **Flexible:** with its 360° swiveling arm, adjust the light wherever you need it.
- **Design:** its modern and sleek design allows for wide and uniform light diffusion on your desk. Add a touch of color with this lamp, available in several pastel shades.
- **Stable:** its weighted base ensures flawless stability.
- **Pleasant lighting:** enjoy soft and constant light thanks to the latest generation LEDs, protected by an opaque diffuser to avoid any flickering or glare.
- **Energy efficient:** this lamp consumes 75% less energy than incandescent lighting and 35% less energy than fluorescent lighting for the same level of brightness.
- **ON/OFF switch:** conveniently located on the cord for easy use.

Warranty : 2 years
Maximum height: 33 cm / minimum height: 20 cm
Materials: ABS plastic head and base / rubberized surface metal arms

ENVIRONMENT

UNILUX focuses on sustainable development and takes concrete measures to reduce its environmental footprint and best meet the evolving expectations of its consumers.

We are notably committed to reduce our greenhouse gas emissions by 29% between 2021 and 2030 in response to the "Net Zero Carbon Emissions by 2050" challenge. Eco-design, emissions reduction and continuous improvement are at the core of our concerns.

OUR EXPERTISE

Task lighting

In the office, we are often exposed to constant artificial lighting. Poor lighting quality can lead to headaches, sleep disturbances, and decreased concentration. According to a recent study, only 34% of workspaces achieve the recommended illuminance level of 500 lux by Occupational Medicine, in accordance with DIN EN 12464-1* standard. Task lighting is frequently used to provide additional brightness when the primary lighting is insufficient.

* Standard setting the limits that workplace lighting must adhere to.

Our tips to light up your workspace :

- Position your desk near windows to benefit from natural daylight and reduce eye fatigue.
- Ensure that the lamp head is positioned at least 35 cm above the work surface.
- Place the lamp on the opposite side of the hand that holds the mouse or writes.
- Position the lamp for easy adjustment.
- Ensure that your lamp is placed to avoid glare on screens and prevent direct glare in your field of vision.

ABOUT UNILUX

Founded in 1952, UNILUX is a French company specializing in lighting and ergonomics. Over the past 25 years, UNILUX has become a benchmark in the field of lighting in France and throughout Europe. In 2000, UNILUX joined the French group HAMELIN, a European leader in stationery. The company modernizes and evolves to become a creator of ambiance and well-being.
