ERGO LEG

# ERGO LEG

ERGO LEG est une chaise à genoux ergonomique qui maintient votre corps droit. Elle vous oblige à travailler vos abdominaux . C'est une assise dynamique qui améliore votre posture et qui contribue à un meilleur bien-être, un meilleur tonus musculaire; une meilleure concentration. L'équilibre que vous apportez ERGO LEG vous permettra de réduire le mal de dos.

# ERGO LEG

- **Quality:** The dynamic seat is made of high-density foam covered with a resistant fabric. It is made of a steel structure and has 2 lockable wheels.
- **Ergonomic:** This ergonomic seat is designed to correct posture. The inclination of the seat and knee supports reduces pressure on the spine, lower back, back, shoulders and neck after several hours of sitting.
- **Adjustable:** You can manually adjust the angles of this seat (5 levels). It is also possible to adjust the height from 52-62 cm using its hydraulic cylinder. It will adapt to all morphologies
- **Comfortable:** The generous 9 cm thick padding of the seat and knee supports guarantees a high level of comfort.
- **Installation:** The Ergo leg is quick and easy to assemble following the installation instructions.
- **Office or Home Use:** This dynamic seating is suitable for both home and office. It can be used as an office chair, meditation chair, computer chair, etc.

Maximum weight supported: 150 kg

Seat thickness: 9 cm

Knee brace thickness: 9 cm

Type of padding: EPE density 18 kg/m3

Finishes: black fabrics

Assembly time: 3 minutes

Materials: steel/ABS plastic/EPE foam and polyester

## Characteristics

SAP no.	400165094
Color	Black / Grey metal
Dimensions	47 x 52-62 x 68 cm
Warranty	2 years
Net weight	7,7
EAN code	3595560034642

# OUR CSR COMMITMENTS

1. All our lighting are **100% repairable** thus limiting planned obsolescence.
2. Reduce our carbon footprint through our **ECO-DESIGN THINKING** approach.
3. Contribute to the preservation of the planet's natural resources by promoting the use of **recycled materials**.
4. Optimize our packaging to control our **transport costs**.
5. Highlight the **talent of our employees** by ensuring social equality.

## OUR EXPERTISE

### Combating a sedentary lifestyle

Following numerous studies, sitting will increase the risk of having heart problems while reducing life expectancy by 7 years. Indeed, the human body is designed to “move”, and not to remain almost still for 9 hours a day. Ultimately, this position disrupts the entire body (less well oxygenated) which leads to an increase in fat cells causing potential excess weight. Ideal for avoiding back, lumbar and muscular pain (shoulders, arms, back), our range of dynamic seats is designed to promote good posture in your spine by inducing the tilt of your pelvis and forming an open angle of 110° between your thighs and your spine, thereby reducing the tension exerted on your pelvic muscles. This natural posture prevents back pain and improves your muscle tone without hindering your movements.

## OUR CERTIFICATIONS

Unilux is committed to an eco-responsible approach and ensures that its products respect this commitment. Indeed, we are very concerned about current environmental issues and we aspire to respond as best as possible to the concerns of our consumers on this subject. Sustainable development is at the heart of our strategy and we act for the environment. You will find below the different certifications that Unilux has and that prove its environmental commitment.
