UNILUX

# HALO

- **Foldable** : HALO is the folding lamp that adapts to all your lighting needs. Compact and stylish, it brightens up your everyday life with class and practicality.
- **Settings** : easy to use, its touch-sensitive ON/OFF button lets you adjust brightness (3 levels) and colour temperature in the blink of an eye, for a made-to-measure ambience.
- **Color temperature variation** : from resting to reading to working, it's all possible!
- **Design** : with its sleek, practical design, HALO is the perfect blend of modern elegance and luminous functionality.
- **Self-sustaining** : the 1200 mAh integrated self-contained battery gives you total freedom of use, so you can enjoy a reliable source of power without any constraints.
- **Practical** : thanks to the USB cable supplied, HALO can be plugged into laptops and can even accommodate your smartphone, whether in landscape or portrait mode.

**Warranty** : 2 years  
**Recharging time** : 1.5 h  
**Using time** : 2 h with max intensity and 6 h with min intensity  
**Max height** : 35 cm  
**Min height** : 20 cm  
**Materials** : ABS plastic

## Features

Measurement in Lux on the work surface from a top view at 30 cm :

> 500 Lux

< 500 Lux

Measurement in Lux on the work surface from a side view at 30 cm :

> 500 Lux

< 500 Lux

Measurement in nanometers of the light spectrum :

- 0 No-risk
- 1 Low-risk
- 2 Moderate-risk
- 3 High-risk

SAP. code	400188501
EAN code	3595560040674
Color	White
Luminous flux (Lm)	221
Lux (Lx)	1000 at 30 cm
Energy efficiency (Lm/W)	120
Color temperature ( K)	3000 / 4500 / 6000
CRI	85
Source lifespan (h)	50 000
Energy consumed (kWh/1000 h)	2
USB port	No
Induction charger	No
Net weight (kg)	0.26

# ENVIRONMENT

UNILUX focuses on sustainable development and takes concrete measures to reduce its environmental footprint and best meet the evolving expectations of its consumers.

We are notably committed to reduce our greenhouse gas emissions by 29% between 2021 and 2030 in response to the "Net Zero Carbon Emissions by 2050" challenge. Eco-design, emissions reduction and continuous improvement are at the core of our concerns.

# OUR EXPERTISE

## Task lighting

In the office, we are often exposed to constant artificial lighting. Poor lighting quality can lead to headaches, sleep disturbances, and decreased concentration. According to a recent study, only 34% of workspaces achieve the recommended illuminance level of 500 lux by Occupational Medicine, in accordance with DIN EN 12464-1\* standard. Task lighting is frequently used to provide additional brightness when the primary lighting is insufficient.

\* Standard setting the limits that workplace lighting must adhere to.

## Our tips to light up your workspace :

- Position your desk near windows to benefit from natural daylight and reduce eye fatigue.
- Ensure that the lamp head is positioned at least 35 cm above the work surface.
- Place the lamp on the opposite side of the hand that holds the mouse or writes.
- Position the lamp for easy adjustment.
- Ensure that your lamp is placed to avoid glare on screens and prevent direct glare in your field of vision.

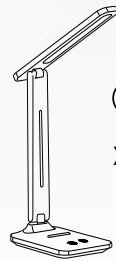

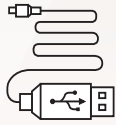

# ABOUT UNILUX

Founded in 1952, UNILUX is a French company specializing in lighting and ergonomics. Over the past 25 years, UNILUX has become a benchmark in the field of lighting in France and throughout Europe. In 2000, UNILUX joined the French group HAMELIN, a European leader in stationery. The company modernizes and evolves to become a creator of ambiance and well-being.
